

# A History of England

## England in the Later Middle Ages A Political History

by M H Keen Fellow of Balliol College Oxford

This is the fourth volume of the Folio Society's History of England series, and like the others is intended as a quick review of the period for general readers, rather than a detailed discussion for the expert. The book starts in 1290, the eighteenth year of Edward I's reign, and covers the history of England up to 1461, the end of the War of the Roses.

The book is readable and informative, well researched and engaging.
